MAC, PC, WINDOWS 8 PRO COMPATIBLE | 3-YEAR WARRANTY

## Free Targus WiFi Autoswitch Utility

Laptops often connect to corporate wireless networks even when simultaneously connected to a wired Ethernet connection. Network bandwidth consumption can be a costly burden for businesses, especially when impacting network performance.

The Targus WiFi AutoSwitch Utility is an effective software program that eliminates costly network bandwidth consumption. When it auto-detects a wired Ethernet connection, it turns off the PC laptop's WiFi card. When undocked, the WiFi card automatically turns back on.

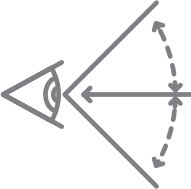

This Targus solution provides seamless connectivity and maximum productivity for end users while optimizing network speed and performance. It's easy to install—just download and let it do the rest.

# TAA-COMPLIANT PRODUCTS | 4Vu™ PRIVACY SCREENS

Private information can easily become public knowledge if you don't equip your workforce with the proper equipment to safeguard company assets. Meeting new standards in privacy protection, Targus 4Vu Privacy Screens ensure your valuable information is kept private without compromising screen clarity.

Find a compatible Targus Privacy Screen with our easy-to-use Privacy Screen Finder at [TargusBusiness.com](http://TargusBusiness.com).

# TAA-COMPLIANT PRODUCTS | SAFEPORT® RUGGED CASES

## What is Mil-Spec?

Set and defined by the U.S. Department of Defense, Military Standard 810G establishes testing limits on environmental conditions that materials and goods can possibly endure during their service life while replicating the effects of environments rather than trying to reproduce them.

An independent testing lab tested all of our SafePort Cases based on parameters defined by the U.S. Department of Defense. Each case was put through rugged environmental conditions to see how it stood up against drops, shock, vibration, dust and water.

Our SafePort Rugged cases excelled. SafePort is our toughest case built to protect your device wherever it lands.
