Introduction

Congratulations on your purchase of the Targus Bluetooth Presenter. This presenter with mouse functionality uses Bluetooth wireless technology to provide a seamless connection up to 33ft (10 m) away. Now you can interact with your audiences and still maintain control of your notebook or desktop computer. Conveniently placed page-up and page-down buttons help you navigate through your presentation with ease, whilst the built-in laser pointer gives you the option of highlighting key concepts on screen. You can also use the Touch Scroll to control the mouse cursor movement.

System Requirements

Hardware
- Bluetooth-enabled notebook or desktop computer

Operating System
- Mac OS® X 10.4 or later
Installing the Batteries

• Please use the two AA batteries that are included.

• Install two AA batteries into the presenter with the correct polarity. Refer to the polarity signs inside the battery compartment.

• Slide the battery cover back into position.

• Turn on the presenter by pressing the on/off switch located on the side.

Low Battery Power Indicator

NOTE: WHEN THE BATTERY POWER IS LOW, THE TOUCH SCROLL WILL FLASH RED. PLEASE REPLACE THE BATTERIES.

When 60 minutes of power remains, a red indicator light will glow for 8 seconds.
When only 30 minutes of power remains, the red indicator light will blink continuously.

NOTE: PLEASE REMOVE THE PROTECTIVE PLASTIC FILM ON THE TOUCH SCROLL BEFORE USING THE DEVICE.

NOTE: THE DEVICE WILL GO INTO SLEEP-MODE AFTER 60 MINUTES OF IN-ACTIVITY. TO RE-ACTIVATE, PRESS ANY KEY ON THE DEVICE AND WAIT 1 TO 4 SECONDS.

Initial Configuration

Before you can begin using your Bluetooth presenter, you will first need to perform some initial setup steps.

NOTE: PLEASE USE THE LATEST BLUETOOTH DEVICE DRIVER. INSTRUCTION SCREENS MIGHT VARY DEPENDING ON THE VERSION OF YOUR BLUETOOTH DEVICE DRIVER.

Bluetooth Software: Mac

1. Go to the Bluetooth icon located on your desktop or in the system bar and click the icon to begin setup. Select “Turn Bluetooth On” to activate the Bluetooth function on your Mac.

2. Scroll down the list and select “Set up Bluetooth Device…”

3. Bluetooth Setup Assistant will begin. Please follow the on-screen instructions.

4. Select “mouse” and click continue to proceed with setup. Your presenter will need to be in “discovery” mode to connect. First, power on the presenter by pressing the “on/off” key for 3 seconds. Then, within 3 seconds after the power is on, press any button once (except “on/off” button) to enter into discovery mode. The LED in the Touch Scroll will blink continuously to indicate “discovery” mode is enabled.
5. Your computer will begin to search for the presenter. Once the presenter is found, it will show up in the list. Highlight your presenter and press continue.

6. The Bluetooth presenter will now begin pairing. Click continue to proceed.

7. Congratulations. Your Bluetooth presenter is setup and ready to use. You can choose to setup another device or click Quit to exit setup.
Installing Software for Programmable Buttons

Installing the software enables configuration of the programmable buttons. The software is located on the included CD or The latest software (Model # AMP11) can be downloaded from the official Targus web site: http://www.targus.com

Double click the setup icon to launch the installation software.

Follow the on-screen instructions to complete the installation.
Programming the Buttons

Click onto the Targus logo to launch the device application.

Click to highlight the image of the device and then press “Setup Device” to launch the configuration software.

Each button can be programmed to any of the following types of functions:

<table>
<thead>
<tr>
<th>Default Action</th>
<th>Set the buttons to a specific function.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Run AppleScript</td>
<td>Set the buttons to load an AppleScript</td>
</tr>
<tr>
<td>Launch Application</td>
<td>Set the buttons to launch specific application installed in the computer.</td>
</tr>
<tr>
<td>Perform key strokes</td>
<td>Set the button to recall key strokes.</td>
</tr>
<tr>
<td>Predefined functions</td>
<td>Set the button to map pre-set actions</td>
</tr>
</tbody>
</table>

NOTE: PLEASE SELECT THE CORRECT “PRESENTATION SOFTWARE” IN ORDER FOR THE PRESENTER KEYS TO FUNCTION PROPERLY.

Close the application window to apply the changes.
Troubleshooting

The Presenter is not working.

• Make sure the batteries are installed correctly. The positive (+) and negative (-) ends of each battery must match the positive (+) and negative (-) connections in the battery compartment.

• Make sure the batteries are charged. Replace if necessary.

• Verify that the computer is Bluetooth enabled.

• Verify that the device drivers are installed:
  1. Click “Apple Logo --> System Preference --> Hardware --> Bluetooth”
  2. Check under “Bluetooth Devices” that a “Targus Bluetooth Presenter” is installed.

• Paired devices are always displayed in “Bluetooth” windows, even if the mouse is out of range or not powered up.

Product Registration

Targus recommends that you register your Targus accessory shortly after purchasing it. To register your Targus accessory, go to:
http://www.targus.com/registration.asp
You will need to provide your full name, email address, country of residence and product information.

Warranty

Targus warrants this product to be free from defects in materials and workmanship for one year. If your Targus accessory is found to be defective within that time, we will promptly repair or replace it. This warranty does not cover accidental damage, wear and tear, or consequential or incidental loss. Under no conditions is Targus liable for loss of, or damage to, a computer or other device(s); nor loss of, or damage to, programs, records, or data; nor any consequential or incidental damages, even if Targus has been informed of their possibility. This warranty does not affect your statutory rights.

Regulatory Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
FCC Statement
Tested to Comply

This equipment has been tested and found to comply with the limits of a Class B
digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to
provide reasonable protection against harmful interference in a residential installation.
This equipment generates, uses, and can radiate radio frequency energy and if not
installed and used in accordance with the instructions, may cause harmful interference
to radio communications. However, there is no guarantee that interference will not
occur in a particular installation. If this equipment does cause harmful interference to
radio or television reception, which can be determined by turning the equipment off
and on, the user is encouraged to try to correct the interference by one or more of the
following measures:
• Reorient or relocate the receiving antenna;
• Increase the separation between the equipment and receiver;
• Connect the equipment into an outlet on a circuit different from that to which the
  receiver is connected;
• Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not authorized by the party responsible for compliance could
void the user's authority to operate this product.

Declaration of Conformity

Hereby, Targus, declares that this device is in compliance with the essential
requirements and other relevant provisions of Directive 1999/5/EC.
