- Find your laptop’s brand
- Identify the correct tip (test fit in laptop if needed)
- Connect to the power cord (F) on the USB companion charger (D)
- All tips listed are for laptops that require between 19 and 20 volts. If your laptop requires 16 volts, it will not work with this charger. If you have any doubts, please check the compatibility at targus.com or call our Compatibility Hotline.

TIP FINDER HOTLINE
For the fastest method to find the tip you need, please call us toll-free.
1-866-721-4805
2. Attach the USB Companion Charger(D) to the end of the power cord.

3. Charging your mobile electronics
   • Using the USB charge/sync cable that came with your device, plug one end into the USB Companion Charger(D), and the other into your tablet or smartphone.

WARNING: DO NOT FORCE THE TIP INTO THE LAPTOP’S POWER CONNECTOR. THE CORRECT TIP WILL FIT SMOOTHLY INTO THE SOCKET.

Compatibility Hotline
Need help setting up your Targus Laptop Charger? Not sure which tip to use? Call our 24-hour, toll-free hotline at 1-866-721-4805. Or visit our website at: www.targus.com/power

If you can’t find the tip you need, you don’t need to return to the store, just call us and we’ll help you immediately!

Charging Multiple Devices
The Laptop Charger is designed to charge two devices at once. Both a laptop and a mobile electronic device can be charged at the same time or can be charged alone. The laptop charger and USB Companion Charger have a blue LED that is lit when powered.

TIPS FROM TARGUS!
Register your Targus Laptop Charger today and take advantage of our Tips from Targus! program:
• Free Tips* for future laptops
To register, visit our website at www.targus.com/register.
*Shipping and handling fees apply. Visit http://www.targus.com/register for complete terms and conditions of this offer.
NOTE: YOUR TARGUS LAPTOP CHARGER WILL AUTOMATICALLY ADJUST THE WATTAGE TO MEET THE SPECIFICATIONS OF YOUR LAPTOP (UP TO 90 WATTS) AND BEGIN CHARGING YOUR LAPTOP BATTERY. YOUR LAPTOP CAN BE POWERED ON AND IN USE WHILE THE ADAPTER CHARGES THE BATTERY. AFTER UNPLUGGING YOUR ADAPTER, PLEASE WAIT AT LEAST 5 SECONDS BEFORE PLUGGING IT BACK IN TO ALLOW IT TO RESET.

NOTE: THE AC ADAPTER MAY BECOME WARM WHEN IN USE. THIS IS NORMAL.

Technical Specifications:
Input: 100-240V AC, 50/60Hz, 2.5A
Output: 19.5V DC, 4.61A max, 90W max

**Charging the Backup Battery**

Using the Micro-USB Cable(F), connect the Micro-USB connector(G) to the Backup Battery(E), and the Standard USB connector to USB Companion Charger(D). The LED on the battery will begin to blink when charging. When all 4 LEDs are lit, the unit is fully charged. Charging will take 2-3 hours depending on the source. This battery can also be charged from any standard USB port such as a computer.

Technical Specifications:
Input: 5.0V DC, 1A
Output: 5.1V DC, 2.1A
Capacity: 4800mAh/3.7V
Using the Backup Battery

(1) To Power and Charge your mobile devices from the Backup Battery(E), you can either use the charge/sync cable that came with your device, or the included Micro-USB cable(F) and optional Mini-USB Connector tip(G).

Simply connect the Standard USB connector to the Backup Battery, connect the other end of the cable to your device, and push the gray power button. The LEDs will turn on briefly, and your device will begin to charge.

(2) Use the mini-USB connector tip(G) for devices requiring a mini-USB connector.

(3) To check the battery level, simply press the gray power button, and the LEDs will indicate the remaining power level.

Product Registration
Targus recommends that you register your Targus accessory shortly after purchasing it. Go to: http://www.targus.com/registration.asp
You will need to provide your full name, email address, country of residence and product information.

Warranty
Targus warrants this product to be free from defects in materials and workmanship for two years. If your Targus accessory is found to be defective within that time, we will promptly repair or replace it. This warranty does not cover accidental damage, wear and tear, or consequential or incidental loss. Under no conditions is Targus liable for loss of, or damage to devices; nor loss of, or damage to, programs, records, or data; nor any consequential or incidental damages, even if Targus has been informed of their possibility. This warranty does not affect your statutory rights.

Regulatory Compliance
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Statement
Tested to Comply
This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna;
• Increase the separation between the equipment and receiver;
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected;
• Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not authorized by the party responsible for compliance could void the user’s authority to operate this product.
