Introduction to Targus

Targus Worldwide

targus.com/globalproducts

Handcrafted in a small London suburb, the original laptop case was designed by Targus to carry some of the industry's first portable computers across town and around the globe. Since its inception 30 years ago, Targus continues to evolve — producing products that enhance productivity, connectivity and security, liberating users to work, learn, connect and play in any and all environments with the utmost convenience and comfort.

Global Expertise

- Global product availability
- Worldwide sales force
- Direct distribution in over 100 countries
- Customer Service in local languages around the world
- 45 Offices worldwide:

Africa	Europe
Asia	Latin America
Australia	Middle East
Canada	United States

World-Class Design

Targus features an in-house design team which allows us to manage our concepts, product design, research and development from beginning to end. Products are tested and validated through end-user research and our "Voice of the Customer" program prior to distribution to ensure our customers are receiving the quality product they require.

Partnerships

Targus sells more than 20 million laptop cases every year. In addition to Targus-branded cases, the company designs and manufactures cases and accessories for many of our OEM partners including HP, Dell, Lenovo, Toshiba, Sony and Acer.

Targus WiFi AutoSwitch Utility

PROBLEM:

Laptops often connect to corporate wireless networks even when simultaneously connected to a wired Ethernet connection. This unfortunately consumes network bandwidth and can be a costly burden for businesses especially when impacting network performance.

SOLUTION:

The Targus WiFi AutoSwitch Utility is an effective software program that eliminates this problem. When it auto-detects a wired Ethernet connection, it turns off the PC laptop's WiFi card. When undocked, the WiFi card automatically turns back on.

BENEFIT:

This Targus solution provides seamless connectivity and maximum productivity for end users while optimizing network speed and performance. It's easy to install—just download and let it do the rest.

COST:

FREE with bulk purchase of Targus Universal USB 3.0 docking stations.
