

# INTERNATIONAL POWER AND PHONE ADAPTERS

- 1 The power adapters in this pack are intended for connecting your computer's AC adapter to foreign outlets. They don't convert the voltage. To avoid possible damage, check that your computer's AC adapter is rated to handle both the 110 and 220-240 volt standards before connecting it to the power adapter.
- 2 The power and telephone adapters supplied in this pack are listed in the table below. The adapter name refers to the country or countries that primarily use that particular plug configuration.
- 3 Although the power adapters are designed for use in specific countries, they will work in any country that supports the same plug configuration. For example, the Australian power adapter (PWR-103) can also be used in Argentina and Uruguay.
- 4 The telephone adapters only support modem communication.
- 5 Before you travel, verify that you have the correct power and telephone adapter(s) by finding the country and its corresponding adapter part number(s) in the Worldwide Selection Guide on the reverse side.

ADAPTER	TYPE	ADAPTER	TYPE
 Germany PHA - 081	Telephone	 Power – UK PWR - 104	Power
 UK PHA - 174	Telephone	 Power – Europe (small) PWR - 115	Power
 France PHA - 071	Telephone	 Power – Italy PWR - 109	Power
 U.S. Doubler PHA - 172	Telephone	 Power – Australia PWR - 103	Power
 Italy/Finland PHA - 061	Telephone		

# INTERNATIONAL POWER AND PHONE ADAPTERS Worldwide Selection Guide

 NOTE: Not all countries are listed below. Some countries may not have telephone or power configurations supported by the adapters included in this pack.

COUNTRY	POWER	TELEPHONE
<b>EUROPE</b>		
Albania	PWR-115, 106	PHA-251
Armenia	PWR-115	
Austria	PWR-106, 115, 103	
†Azores	PWR-106, 115	PHA-051
Belgium	PWR-115, 106	PHA-031
Bosnia	PWR-115, 106	
†Bulgaria	PWR-106, 115	
†Croatia	PWR-115, 106	
Czech Republic	PWR-115, 106	PHA-071
